

Living from the Heart

"Compassion and self compassion are not techniques or methods. It is a way of being in the world, always intending fullness." Robert Gonzales

weekend of advanced learning developed from NVC teaching - 8 & 9 Oct 2011

If it's not play don't do it! This is a weekend of play that offers the opportunity for you to deepen your awareness of how NVC can enrich your life.

Between us we bring many years of experience and compassion that a deep understanding of NVC has brought into our own personal growth journeys. We will draw particularly from the work of Robert Gonzales, who looks deeply into the consciousness of NVC offering far more than a compassionate way of communicating, but a spiritual path that fosters a new way of being in the world.

We will use a great variety of mediums and activities providing an experiential learning weekend. We intend to hold the space for whatever learning you seek providing a conscious awareness of the needs of all. Our intention is to serve you.

To listen and express our heart's yearning is a deeply satisfying way to connect with our world. What stories, obstacles get in your way of you living from a heart space? A deepening and noticing of our hearts longing will reveal layers of wisdom that eagerly wait to emerge from within us all.

In short, we want to help you, to see your beauty that is naturally reflected in others.
