Facilitator: Filipa Hope Providing personal and professional development with NVC since 2010 - for parents, couples, educators, therapists, and communities.

“What I love about NVC is that it continually supports me to build my capacity to confidently be my authentic self, strongly living my values with empathy and compassion. It has helped me to be an empowered model of communication and relationship skills for my daughters. It is my pleasure and privilege to support others to discover what NVC offers.”
